

You are invited to **SAP Day HANA**

Join us on **17.11.2017, 09:30 – 16:00**

Location: **SAP Headquarters, Walldorf**

Are you passionate about C++ software development and about to finish your IT degree? Do you want to find out more about SAP HANA and career opportunities within the SAP HANA Database team? Do you want to start your career at the world market leader for enterprise software? Then this is your chance: join our “SAP Day HANA”, get exciting insights into the SAP HANA in-memory database team and find out about new, ground-breaking SAP applications.

In-memory computing is made possible through recent technology advances in main memory, multi-core processing, and data management. It leverages technology innovation to establish real-time analysis of business data and combines both transactions and analytics to improve existing business processes with a significant increase in performance. The SAP HANA in-memory database as basis for the in-memory computing is the key driver for SAP market of the future.

The Agenda of the SAP Day HANA will include the following parts:

- Get insights about SAP and meet with an SAP Recruiter
- Hear a lecture on “Enterprise Operational Analytics Data Management Systems – From Vision to Reality”, with Speaker Hinnerk Gildhoff, SAP Software Development Manager and head of SAP HANA Spatial & Graph
- Join in on a Speed Dating Session with SAP HANA Software Development Managers
- Visit the SAP Big Data ‘Inspiration’ Pavilion

Sounds great? Then Register now here: <http://bit.ly/2xAVWQc>

Space is limited. We hope to see you at the SAP Headquarters? And we look forward to meeting you.
